

The modern Brigham Young (James Arrington) gestures in emphatic way, similar to 19th Century prophet. He made close study of Brigham's mannerisms for this week's

Arrington's performance is full of intimate details – little movements, voice inflections, and facial gestures – that give real personality to the The piles of research material that were studied in Sewing 150 E. 800 N. Provo Root Beer 5 til 10 PM

a Carat, Loses a Curse Hope Diamond Gains

Limon also reworked the plati-num setting for the diamond so two prongs now are hinged and the stone can more easily be rediamond is seldom seen and one of such size is indeed phenomemoved for scientific study. A blue The Hope Diamond, one of the rarest and most beautiful of all the treasured germs of mankind, has been brought up to date with close germological examination and some historical research. The result: the brilliant blue

The Smithsonian, which was given the gem in 1958 by New York jeweler Harry Winston, will not place any valuation on the tone. However, the most recent price quoted for it was \$10 mildiamond, centerpiece of the re-noward Hall of Gens in the Snithsonian Institution, Wash-nigton, D.C., was found to weigh one curat more than formetly be-lieved, and its famed curse to be largely a shan. The gen scientist who found the extra carts was Robert Limon, a Certified Genologist of the primary author of the most so principle of the primary author of the most so the United States — the Diamod Grade States and the United States and the United States and the Diamod Grade Stat

Sense of humor

The institution now is preparing a book to be published on the gem, and the volume pretty well does away with the supposed

The author, Susanne Steinem Patch, points out that French in India in 1642, supposedly was torn apart by a pack of dogs. But her research showed that he died tone from the eye of a Hindu idol

Limon was called in for the Hope Diamond study by Paul Desurdes, curator and supervisor of the Department of Mineralogy at the Smithsonian. Limon, who also

toment. However, she wore virtually all the crown jewels of Louis XIV and the blame could be put on any one of them for her sad end at the guillotine. There were cases, however, of some of its owners meeting with iolent death, such as Marie Anseacefully in bed at the age of 83.

is a director of the American Gem Society, conducts his own retail jewelty business in Bethesda, Maryland, a suburb of the na-tion's capital.

Limon discovered that the diamond actually weighs 45.52 carats, instead of the 44½ carats

of several owners and later became the possesion of Evelyn Walsh McLean of Washington, DC., who paid \$180,000 for it. Her extate sold it to Winston and he donated it to the Smithsonian The Hope Diamond was named after Lord Henry Philip Hope, an English banker, who acquired it in 1830. It passed through the hands

planned. "Most of this apparent divergency of the apparent divergency can be explained by the international strandardization of the carta weight until in 1913, from the most weight of the diamond and the second finish system he weight of the diamond and hear given as 44.22 curats, evidently 44% cartas was a gen merchan's overstatement." (A carat is about one-hird of an

gift to the American people.

When Sloat and Stevenson fought through the crowd to each other after the victory Friday the reaction was spontaneous – a hug, and a sigh of relief.

The day was ensergenting First it poused down ruln. Then it poused and the runn turned to stowe. Upon arraying a school Rangy Stora and Revolte Lee Stevenson, candidates for student body president and wee president, discovered their quad properly that been damaged their quad properly that been damaged.

"Why can't people just go in and vote for one guy or the one and has another?" Soan matters, the wind whipping the one and has another? Soan matters, the wind whipping the condition of the start of Earth, will and I be the clear yan, pushed in a tape of Earth, will and I be purple. Sing a Song "and drove to the doorns of stake hands."

Meanwhile his running-mate Stevenson hustled around the Wilkinson Center setting up an indoor display "We'ten the process of winning," he says as he shakes the water out of a ploat/Stevenson "comnon sense" banner behind the

ookstore.

As the dashes back through the ELWC he says, "When no yor re around me always truey towned is a laddy because I'll resul you like one." And as he opened the door for a smiling resul you like one." And as he opened the door for a smiling real you like one." And as he opened the door for a smiling real you like one." And as he opened the door for smiling of he had so the charmange of the dorners after their nine o'clock, else of suless and we'll this to encourage you over un the final elections." As he smiles and graspe hand titer hand he tells of how the fusion of Stort and Stewnson titer hand he was the sules of the sules o

ne about.
I met Bob on survival." Sloat knew in the summer he ated to run, but at the time he hadn't decided on aning mate.

Dr. Allsen has worked on his share of research projects that have varied from a study of the effect of the menstrual cycle on women athletes to the effect of aspirin on maximum

Concerning his sprint study, Dr. Allean laughs swring that here were no noticeable effects (and, but "not an athlete or a breadshe during the project."

One area of the laths labeled "Kennells" houses scores of syorimania rats. This is where Dr. Rulon S. Francis, stockata: professor and director of prophysical and troccouptational therapy, does research on rodents, hoping to

out to prove or disprove this theory by injecting the Achillatendron of 20 rats with contense, 20 with a sidne or stall,
solution, and using 20 as a control group. "Feery two weeks for
12 ratis were sentfrieed, and their Achilles tendron atbigeted to
1,10 a test to measure its strength," says Dr. Frincis There was the
man no significant difference found in the rats which had received
no cortisone injections and the rats which had not.
But not all the research has been done in the past Studies
that are constantly being done using the treadmills, computers,
yele and other equipment of the labs. "We are constantly trying
yele and other equipment of the labs." We are constantly trying
to improve the lab with newer and better equipment," says
to be sometime of the labs to the past sevent
the positions." We have really been active for the past sevent

A New Spectrum in Dramatic Arts of Creativity

Mosaic Theatre
The Creative Use of Theatrical by Lael J. Woodbury

Theatre: The Creative Use of Theatrical Constructs. The use As a challenge to the premise that the script holds the essential construct of theatre and that the experience in his book, Mosaic wealth of scholarship and tested

auditorium opens a new realm of theatrical expression with the director as the controlling artist. Dr. Woodbury sees his mosaic theatre as a theatre of tideas rather than a theatre of story, effectively using technological of such concepts as tension, surprise, abstraction, distortion, rhythm, space organization, and sound both on stage and in the

Uish County.

"We impound about eighteen per cent of all the east and dogs in the county each hear? he noted "Dogs without leastes are one of any of the county of the cou

Dog bites

to add pain to the actor's cry.
Woodbury's ideas add striking
new dimensions to the theatre for
all who study and practice the
concepts. Find them clearly and
comprehensively defined in this
remarkable book. Mosaic

The problem of loose dogs isn't confined to the county. Sethist indicated "eight-five Deputy Taylor, puts per cent of all dog bites come leash on a nervous dog.

Sheriff's deputies Dan Taylor and Rex Murdock capture a stray dog on a back road in Utah Country. With a population of 50,000 dogs in the country, some canines create

"Popple need to be educated in the proper way to treat aminals." Sechrest said, adding that his staff, as well as the other animal control officers in the county, "can only do so much."

The fact that animal control officers are limited in what they can do spreads to how much actual love they can give to the animals under their care. For students who have a love of animals, and the statement of the control of the care. volunteer opportunities exist, as at the Provo Animal Shelter, 1400 So. 350 East,

"We need manpower to help take phone calls so we can devote more time to taking care of the animals," he said, and he noted that some ByU students, along with boy scouts and others, help with cleaning and other tasks and others, help with cleaning and other tasks and others, help with cleaning and other tasks.
